

Weekly OCII and SFDPH Conference Call Talking Points

12:15pm-12:45pm, Room: 10314 (Lake Mead)

**Ex. 6 Personal Privacy (PP)**

May 06, 2019

<u>San Francisco Department of Public Health</u> <ul style="list-style-type: none"><li>- Tomás J. Aragón - Director, Population Health Division</li><li>- Amy Brownell, Hunters Point Lead</li><li>- Rachael Kagan, Director, Communications</li><li>- Stephanie Cushing, Director, Environmental Health</li></ul>	<u>Office of Community Infrastructure and Investment</u> <ul style="list-style-type: none"><li>- Nadia Sesay, Executive Director</li><li>- Kasheica McKinney, Hunters Point Project Manager</li></ul>
--	---

**Parcel A**

- There is not a lot of activity at the moment for Parcel A. We look forward to seeing CDPH's dust wipe sampling report soon. And, we do expect interest from the public to increase as CDPH's work comes to completion.

**Five-Year Review/Parcel G**

- We had a very successful May 2<sup>nd</sup> "check in" meeting with the Navy. This meeting was to learn about their initial response to our proposed path forward. Our Division Director participated with his equivalent at the Navy.
- The Navy seems to agree to quickly move forward with soil reference background testing outside of Parcel G. EPA is still waiting for the Navy to issue an update to the Parcel G Work Plan that would address additional technical details. We initially requested these details in December, and we now understand the Navy will provide this around the end of May.
- We continue to discuss the timing of issuing the Five-Year Review report and issuing the technical memorandum. In our proposed path forward, we requested a technical memorandum on the long-term protectiveness evaluation, for soil and existing buildings (commercial reuse or demolition), using the PRG Calculator. We also asked the Navy to issue this technical memorandum for public comment. We are discussing whether to hold the FYR report until this memo is complete or issue the FYR with a recommendation to complete the technical memorandum.

**Communications/Meetings**

- **FOIA:** We have one *new* FOIA to report that was from Michelle Klug with YR Media (which is a non-profit production company for young journalists and artists). The FOIA is very broad and she may withdraw it to submit a more specific FOIA. In addition, we still have the four ongoing FOIAs my staff reported on two weeks ago.
- **Media:** Inside EPA asked us for the letter we sent to the Navy last week on comments on the Navy's Parcel G Work Plan. We sent the reporter to our website where our comments are posted.
- **Congressional interest:** This past Friday, EPA briefed the congressional offices of Speaker Pelosi, Senator Feinstein and Senator Harris. The goal of the briefing was to present EPA's proposed path forward.
- **Community events:** Yesterday, Yolanda briefly participated in the "Open Studios" event by the Hunters Point Shipyard Artists. The Navy hosted an informational booth at this event, and Yolanda just walked through the open studios and spoke with the artists. We also wanted to let you know that we have registered to participate in the Navy's site bus tour on May 18th.
- Does the City have any communications/meetings updates? Kasheica, were you able to confirm the May meeting for the HPS CAC would be cancelled?

**Mayor/Supervisor**

- Last week, we discussed people's perspectives of these weekly calls and how information is flowing to the Mayor's office, the Supervisor's office, and Dr. Hunnicutt. Kasheica confirmed she is regularly briefing Nadia, who coordinates regularly with the Mayor's office. We brainstormed if it would be helpful to have a monthly call at a time that would include Nadia, Dr. Hunnicutt and staff from Supervisor Walton's office.
  - After taking a week, what are your thoughts?
  - SFDPH had sent the previous Supervisor weekly written reports. Should be that recontinued?

**Next Meeting**

- How about we schedule the next meeting on May 20, 2019 (so, we skip next Monday)?
